Rinka Africa Company Profile

About Us

We are a South African Civil Engineering Consulting company founded in May 2015 with the aim of providing consultancy services in the disciplines of Water, Structural, Environmental and Geotechnical Engineering. We are based in Midrand (North of Johannesburg), South Africa.

Our areas of expertise are concrete reservoirs, water reticulation, waste water treatment, rural water supply schemes (including boreholes) and solid waste management (including landfill designs).

Rinka Africa is led by qualified professionals who have passion for sustainable development.

BBBEE: Level One (100% Black Owned with 135% Contribution)

Our Business Philosophy

We believe in the principles of sustainable development (ie. People, Planet & Profit) and continuous improvement. We strongly believe that purposeful implementation of sustainable development principles and designing our processes for the environment will ensure long term sustainability of our business and make us responsible citizens.

Mission Statement

Our mission is to provide advanced engineering solutions in the field of Civil Engineering while ensuring sustainable futures for our stakeholders.

Our Vision

Our vision is to be the preferred provider of advanced and sustainable infrastructure solutions within SADC by 2025.

Management

Mr. Katiso Molapo

(MSc. Civil Eng (Stellenbosch), BSc Civil Eng (Wits))

Katiso is a qualified Civil and Structural engineer registered as Candidate Engineer with ECSA. He has over 15 years combined experience in hydraulic and structural design, manufacturing, general management, quality assurance, engineering consultancy, construction, sales & marketing, research & development. He is also serving as external examiner for MSc Engineering at Stellenbosch University. He is currently designing for two circular concrete reservoirs for City of Ekurhuleni. He is also preparing his submission for registration as Professional Engineer.

Areas of Interest

The following are our areas of interest under the field of civil engineering:

- Hydraulic Engineering
- Structural Engineering
- Environmental Engineering
- Project Management

Our Services

- Hydraulic Engineering
 - Design of water and sewer reticulation systems;
 - Design of storm-water systems;
 - Conditional assessments of existing infrastructure

- Structural Engineering
 - Design of Steel structures
 - Design of Pre-stressed Concrete Reservoirs
 - Design of Reinforced Concrete Structures
 - Design of Timber and Masonry Structures
 - Structural Audits and Conditional Assessments

- Environmental Engineering
 - Design for the environment
 - Sustainable Development
 - Design of Landfill sites
 - Design of Renewable energy systems

- Project Management

- Other services
 - Research and development
 - Business Plans for Municipalities and Government departments
 - Project Implementation from Inception to Completion
 - Review of designs

List of Some of Our Projects

CONTRACT DESCRIPTION	LOCATION	CLIENT	ESTIMATED COMPLETION DATE
Design of Esselen Park Reservoir (25 megalitre concrete Reservoir)	Kempton Park, Gauteng, South Africa	City of Ekurhuleni, South Africa	January 2021
Design of Impala Park Reservoir (10 megalitre concrete Reservoir)	Boksburg, Gauteng, South Africa	City of Ekurhuleni, South Africa	August 2020
Structural (SIMM) Audit of Sishen Mine Structures	Sishen Mine, Kathu, Northern Cape, South Africa	Anglo American, Kumba Iron Ore, South Africa	December 2018
Refurbishment and Demolition of SAAME Building for City of Ekurhuleni	Germiston, Gauteng, South Africa	City of Ekurhuleni, South Africa	September 2018
Asset Refurbishment of Rural Water supply Schemes	Mafikeng, North-west Province, South Africa	Ngaka Modiri Molema District Municipality & Department of Water and Sanitation, South Africa	December 2015
